

# TECHNICAL DATA SHEET

## Toilet Buster

### 1. Product Description

**Toilet Buster** is a powerful toilet cleaner and disinfectant formulated to remove stains, limescale, and odours while killing 99.9% of germs. Its thick formula clings to the bowl for longer contact time, ensuring a deep clean and a fresh finish. Ideal for daily use in households, hospitality, schools, and high-traffic public restrooms.

### 2. Applications

- Cleaning and disinfecting toilet bowls and urinals
- Removing stubborn stains, limescale, and organic buildup
- Deodorising bathroom surfaces

### 3. Product Features

- Thick gel for better coverage and longer contact time
- Disinfects and kills 99.9% of bacteria and viruses
- Effectively removes stains and odours

- Leaves a long-lasting fresh fragrance
- Safe for ceramic and porcelain surfaces
- Available in multiple fragrance options (e.g., Mint Fresh, Floral Blast, Citrus Zing)

### 4. Typical Properties

| Property           | Specification                                   |
|--------------------|-------------------------------------------------|
| Appearance         | Thick, coloured liquid (blue or green)          |
| Fragrance          | Fresh, long-lasting scent                       |
| pH (neat)          | 1.5 – 3.0 (acidic for limescale removal)        |
| Viscosity (25°C)   | 800 – 1,500 cP                                  |
| Density (25°C)     | 1.03 – 1.07 g/cm <sup>3</sup>                   |
| Solubility         | Fully soluble in water                          |
| Active Ingredients | Non-ionic surfactants, disinfectants, fragrance |

# TECHNICAL DATA SHEET

## 5. Directions for Use

1. Open nozzle and apply Toilet Buster under the rim and along the bowl.
2. Leave for 10–15 minutes for maximum disinfection and stain removal.
3. Scrub with a toilet brush and flush to rinse.
4. For stubborn stains or odours, repeat as needed.

**Note:** Do not mix with bleach or other cleaners.

## 6. Storage & Handling

- Store upright in a cool, dry area away from direct sunlight
- Keep bottle tightly closed when not in use
- Use gloves during extended use or bulk handling
- Keep out of reach of children and pets

## 7. Packaging

Available in:

- 750ml angled-neck bottle, 1L, 5L, and 25L containers
- Custom packaging available upon request

## 8. Safety & First Aid

- Avoid contact with eyes and skin; rinse immediately with clean water if contact occurs
- Do not ingest — if swallowed, do **not** induce vomiting; seek immediate medical attention
- If irritation persists after contact, consult a medical professional
- Refer to the product Safety Data Sheet (SDS) for full safety guidelines
