

TRAINING MANUAL

Germ Buster QAC Training Manual

Product Overview

Germ Buster QAC is a quaternary ammonium compound-based disinfectant formulated to kill bacteria, viruses, and fungi. It is safe for use on a wide range of hard surfaces, making it ideal for maintaining hygiene in homes, schools, hospitals, restaurants, and industrial facilities.

Where to Use

- Kitchen counters & food prep areas
- Bathrooms & toilets
- Floors & tiles
- Desks, tables & chairs
- Medical & care facilities
- Public spaces (gyms, schools, offices)

Not recommended for wood, unsealed stone, or fabric unless tested first.

How to Use – Step by Step

1. General Surface Disinfection

1. Dilute 1:50 (20 ml per 1 litre of water) for daily cleaning.
2. Apply with cloth, mop, or spray bottle.
3. Leave surface wet for 5–10 minutes contact time.
4. Wipe or allow to air dry.

2. Heavy-Duty Disinfection (Hospitals, Toilets, High-Risk Areas)

1. Dilute 1:20 (50 ml per 1 litre of water).
2. Apply liberally to surface.
3. Leave for 10 minutes before wiping or rinsing.

TRAINING MANUAL

Germ Buster QAC Training Manual

3. Food Preparation Areas

1. Dilute 1:100 (10 ml per 1 litre of water).
2. Apply to counters, chopping boards, and sinks.
3. Leave for 5 minutes.
4. Rinse thoroughly with clean water before food contact.

Safety Guidelines

- Wear gloves when handling concentrated solution.
- Do not ingest.
- Avoid contact with eyes; rinse immediately with water if contact occurs.
- Store in a cool, dry place away from direct sunlight.
- Keep out of reach of children and pets.
- Do not mix with bleach or other cleaning agents.

Quick Tips

- Always allow proper contact time for effective germ kill.
- Use diluted solutions within 24 hours (QAC loses strength if stored diluted too long).
- For spray bottles, label clearly with dilution ratio & date mixed.
