

TRAINING MANUAL

Zama Thin Fragrance Bleach Training Manual

Product Overview

Zama Thin Fragrance Bleach is a multi-purpose cleaning, whitening, and disinfecting solution with a refreshing fragrance. It removes tough stains, whitens fabrics, and kills 99.9% of germs on household surfaces.

Where to Use

- Bathrooms: Toilets, tiles, basins, showers.
- Kitchens: Sinks, counters (non-food surfaces), floors.
- Laundry: Whitening and stain removal for washable white fabrics.
- General Household Surfaces: Floors, drains, and waste areas.

Not suitable for coloured fabrics, wood, aluminium, painted surfaces, or food-contact areas.

How to Use – Step by Step

1. General Surface Cleaning & Disinfection

1. Dilute 1 cup (250 ml) of Zama Thin Fragrance Bleach in 5 litres of water.
2. Apply solution with a mop, cloth, or sponge.
3. Leave for 10 minutes.
4. Rinse thoroughly with clean water.

2. Toilet Cleaning

1. Pour ½ cup (125 ml) of bleach directly into the toilet bowl.
2. Brush thoroughly under the rim and inside the bowl.
3. Leave for 10–15 minutes.
4. Flush with water.

3. Laundry Whitening & Stain Removal

- For Hand Washing (Whites Only):
 - Dilute ½ cup (125 ml) bleach in 10 litres of water.
 - Soak white garments for 5–10 minutes.
 - Rinse thoroughly and wash as usual with detergent.
- For Machine Washing (Whites Only):
 - Add ½ cup (125 ml) bleach to the washing cycle.
 - Wash normally with detergent.

Do not pour undiluted bleach directly onto fabrics.

4. Drain & Waste Area Deodorising

1. Pour ½ cup (125 ml) of undiluted bleach into the drain.
 2. Leave for 15 minutes.
 3. Flush with plenty of water.
-

Safety Guidelines

- Always use in a well-ventilated area.
- Wear gloves to protect skin.
- Avoid mixing with other cleaning chemicals (especially ammonia or acids).
- Keep away from children and pets.
- Store upright in a cool, dry place away from sunlight.

Quick Tips

- Always dilute unless otherwise specified.
- Test on a small hidden area first when unsure.
- For stronger disinfection, increase bleach concentration slightly – but never use undiluted on large surfaces.
